GLOBAL UPDATE

Vol. 04 April 21, 2020

CREATIVE APPROACH

Hello again! Kicking today off with a story about the IMAX Creative Team that inspired us.

In a field that thrives on collaboration, Creative has had to quickly implement new and innovative ways to work together. Weeks ago, as soon as news of COVID-19 started coming out of China, Martha Diermann from Playa Vista took action - partnering with IT to get our artists and creatives all the tools they needed immediately. She also took it upon herself to ensure every member of the team was fully trained and able to access IMAX's creative resources from home.

The result has been immensely helpful for her coworkers and the company at large. And who hasn't leaned on IMAX creative recently? Thank you to Martha and her entire team from all of us.

We know this is just one example of IMAX teams and employees taking action to help their coworkers stay involved. If you have your own story to share, or anything else you think would be interesting to include, send it over to comms@imax.com!

And now for a few other items on our radar...

WELCOME TO EARTH

In observance of Earth Day tomorrow, April 22nd, we wanted to let everyone know about the “**Green Team**” in Sheridan Park. Year round, this group works to develop and implement new ways for our offices and company to be more ‘green’ including the elimination of plastics wherever possible. While typical programming has been postponed, the Green Team is staying active and focused on keeping our Planet, Beautiful with regular meetings and internal updates.

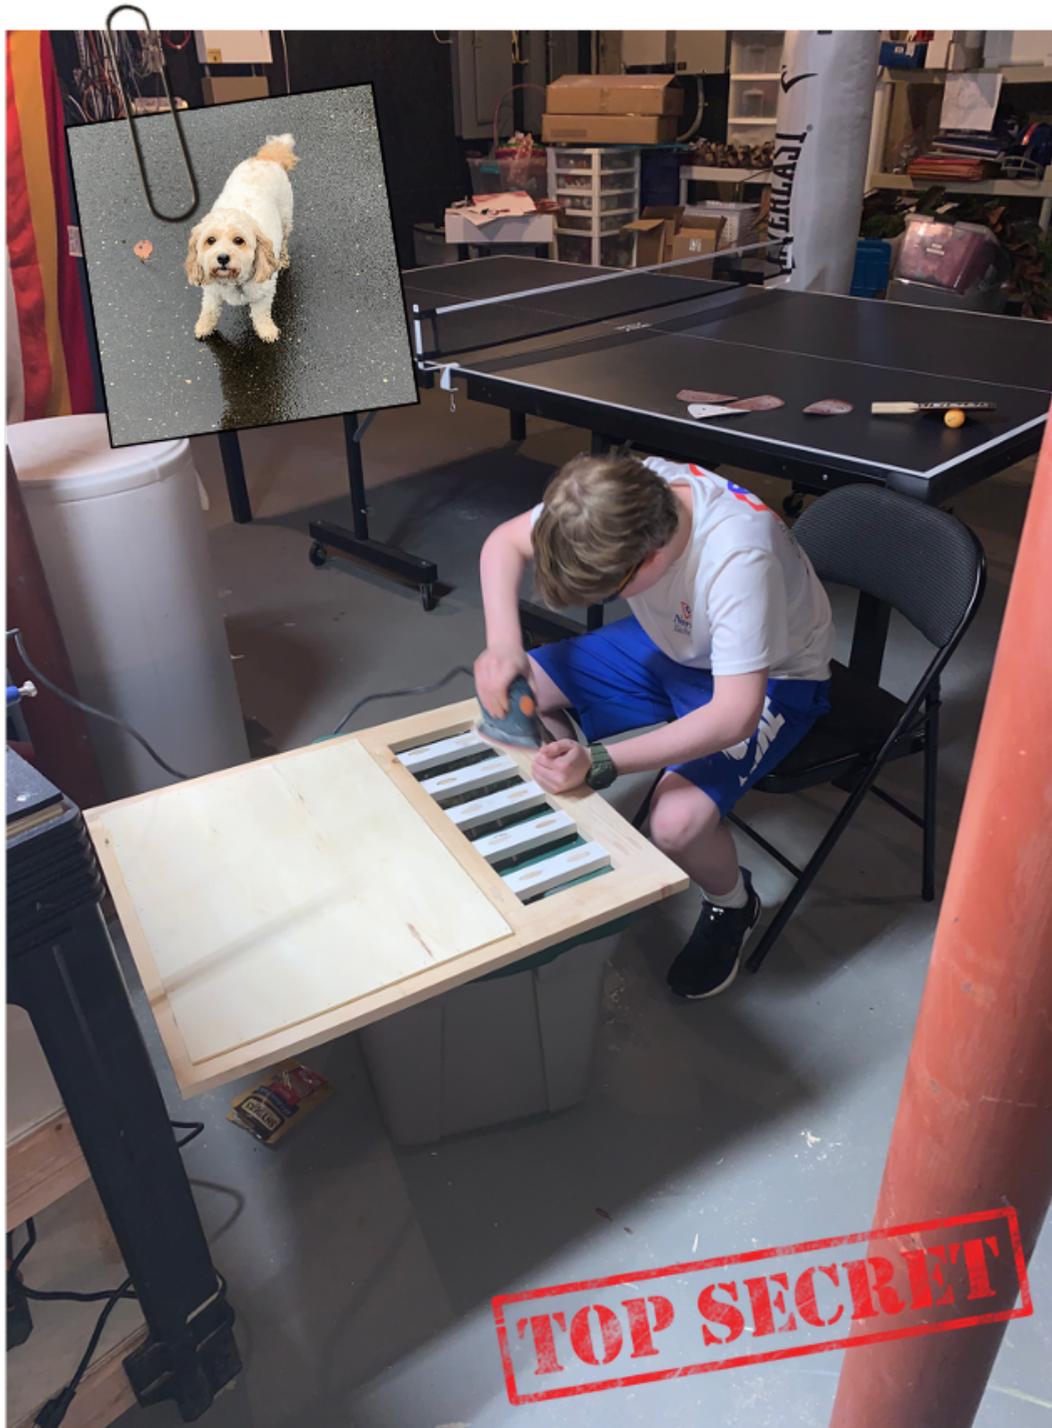

ZOOM ZOO

If you thought your Zoom Happy Hours were interesting, check out some surprise guests that recently joined Playa Vista's.

Brought to you by Richard Le from Post in Playa Vista, who boasts a long list of unique pets including ALL of the following: TWO Corn Snakes, a Leopard Gecko, a Mexican Red Knee Tarantula (!), a colony of THREE HUNDRED Dubia Roaches (!!), a colony of SIX Madagascar Hissing Roaches (!!!), and TWENTY TWO Hens.

UPDATE: COOP PROTOCOL

Calum's work continues with the help of his dad, Patrick McClymont, Executive Vice President and Chief Financial Officer out of New York. What these panels are for, exactly, is TBD but their dog is keeping a watchful eye...
